Education Priorities:

Elementary to High School

Program / Project Description:

Sensory-Friendly Performances for Special Needs Students and SAISD Field Trips (2nd through 5th grade)

Sensory-Friendly Performances

The Tobin Center provides sensory-friendly performances to individuals with special needs and community organizations that serve those with autism or other sensory sensitivities. The ARC, Respite Care, Mission Road Ministries, veterans with PTSD, Sunshine Cottage, special needs programs in all 19 school districts, and home school groups benefit from these specialized performances

Aspects of the performance such as lighting, sound, size of crowd, and a relaxation of theater rules are modified to create an inclusive audience experience. These adjustments are made without compromising the artistic integrity of the performance enabling the Tobin Center to provide equal access to professional performing arts experiences.

Performances are specially presented for those diagnosed with an autism spectrum disorder or other sensory sensitivity making it possible for them to view a performance in a comfortable, safe, and friendly environment. This program has grown to include agencies who serve the blind, hearing impaired and other students with disabilities.

Time Line 2020-21

Flat Stanley an American children's book series by Jeff Brown recounts Stanley's worldwide adventures after becoming flat. This popular story will be presented by Dallas Children's Theater. (1 performance, 630 in attendance October 6, 2020)

SAISD 3rd Grade Students - Boy Who Cried Wolf, famous fable presented by Dallas Children's Theater. (1 performance, 620 in attendance, February 9, 2021)

SAISD 4th Grade Students -The Nutcracker presented by Ballet San Antonio. (1 performance, 700 in attendance, November (TBD), 2020)

San Antonio ISD Student Field Trips

The Tobin Center and SAISD continue its partnership by providing accessible performing arts experiences growing in 2019-20 school year to serve more than 10,000 students in the 2nd, 3rd, 4th and 5th grades. SAISD sees the value to provide cultural equity through the performing arts for our inner city school district. The Tobin Center is in the position to fulfill this goal with a vibrant and rich performing arts program. In 2020-21 school year students will attend the ballet, literature based theater productions, and symphony performances.

Equal Access Field Trips provide a diverse range of educational/artistic experiences for an expanding audience reaching out to all socio-economic, ethnic and under-served students. Studies show the positive effect the arts have on the educational outcome of youth when provided exposure to them, especially at-risk students. When students come to the Tobin Center, along with seeing live theater, they also have opportunities to meet the artists through Q&A's and audience interactions with the performers. SAISD's total student population is just over 50,000. Student demographics are as follows: 90.6% Hispanic, 6.5% African American, 2% White and .9% other. More than 74.7% are at-risk and 90.7% of students are economically disadvantaged.

Time Line 2020-21

SAISD 2nd Grade Students - Flat Stanley presented by Dallas Children's Theater. (School workshop, October 5 - 30 participants & 2 performances, 3,200 in attendance October 6, 2020)

SAISD 3rd Grade Students - Boy Who Cried Wolf, presented by Dallas Children's Theater. (School workshop, February 9 - 30 participants & 2 performances, 3,000 in attendance, February 10, 2021)

SAISD 4th Grade Students -The Nutcracker presented by Ballet San Antonio. (2 performances, 2,300 in attendance, November, 2020)

SAISD 5th Grade Students - Young People's Symphony Concert presented by San Antonio Symphony. (2 performances, 2,000 in attendance, Fall, 2020)

In addition, for unfilled seats, students across the county's 21 school districts and home school groups are invited to attend.

Arts participation at the Tobin Center provides under-served and special needs students both academic and non-academic benefits. They promote self-esteem, motivation, aesthetic awareness, cultural exposure, creativity, improved emotional expression, as well as social harmony and appreciation of diversity. The Tobin Center resides in our student's own backyard, but for them it could be a world away. Through our partnership with SAISD and our community the Tobin Center and all it has to offer will help to open their world to new cultural and creative experiences.

Evaluation Plan:

As a qualitative measure, we will document and evaluate engagement and satisfaction following each SAISD event by gathering feedback through post show surveys. They will be sent to district administration and participating teachers and focus on student preparation before the visit, the actual performance and post show lessons about what they learned. Feedback and follow-up with participants about their full experience will be noted and utilized in moving forward to provide more relevant and beneficial programming for future visits.

Regarding sensory-friendly performances, parents and care givers will have an opportunity to comment about the experience and provide feedback on content, environment and improvements to make these experiences beneficial for children with special needs.

Quantitative measures will include fiscal responsibility and audience development. Event participation will be tracked through our ticketing system and "clicker" counts at free events.

Plans to sustain project beyond the term of this request:

The Tobin Center's development team works diligently to garner contributions in the following areas: membership, annual benefit gala, corporate support, individual donors, and foundation assistance. Newly added in 2019, the Robert Tobin Society offers membership at a higher level for those who would like to support our educational and performing arts programs. We also solicit funding from vendors and corporate partners who are pursued yearly to provide income for building operations. As our educational programs grow, we are broadening our scope of requests to accommodate that growth.
