To protect, love, build trust, and nurture growth of children with special needs and complex medical conditions while strengthening the families caring for them.					

PROJECT INFORMATION

Program / Project Title:

To support basic needs and care for abused and neglected children in protective custody at the Najim and Davidson Emergency Shelters.

PROJECT TIMELINE Start Date 01/01/2021 12/31/2021

Harvey E. Najim Family Foundation Priorities:

Child Abuse & Child Neglect

Program / Project Description:

Respite Care of San Antonio (RCSA) requests \$100,000 to provide food, shelter, safe transportation and specialized care for abused and neglected children in protective custody in RCSA's Davidson Respite House (Davidson) and Najim Family Respite Home (Najim) emergency shelters. RCSA operates the only licensed emergency shelters in Texas dedicated to serving children with special needs and complex medical conditions removed from their homes due to suspected child abuse. This program provides abused children with normalcy that is missing due to the violence, substance abuse and traumas endured in their homes. RCSA cares for children with medical, intellectual and developmental disabilities with conditions such as, Down syndrome, autism, cerebral palsy, spina bifida, fragile X syndrome, blindness, brain injury, prenatal drug exposure and complications from premature birth. In FY20, RCSA's shelters provided 8,376 bed nights to 51 children. This is a reduction from 9,172 bed nights in FY19 because of limitations on child intakes due to COVID-19 safety precautions.

Child abuse prevention is a critical need, especially in San Antonio which had the highest confirmed rate of child abuse and neglect of all Texas metros in 2017. Studies show that children with disabilities are nearly four times more likely to be abused than non-disabled peers. This program provides intervention that helps abused children with medical and special needs from birth to 17 years of age overcome physical, emotional, and social limitations and thrive in a warm and nurturing environment which speeds recovery. Children live in welcoming historic homes and engage in activities providing structure and typical childhood experiences, such as family-style dining with adult caregivers, public school, playground time and field trips. Children residing in RCSA's shelters are deemed residents of San Antonio and school-age children are eligible to enroll in local schools. RCSA's caregivers help children learn neglected life skills, rebuild trust, gain self-reliance, reach their full developmental potential and blossom. Long-term, RCSA expects this program to help end the cycle of violence in the community by modeling positive behaviors in a nurturing, loving environment and providing children with access to counseling and therapy that helps heal trauma.

Abused and neglected children typically have a history of poor preventive and requisite health care. The lack of coordination with providers results in fragmented, delayed care that leads to more disabilities and poor health outcomes. Many abused children suffer from life-long disabilities and need substantial therapy, treatment and extended care. Failure to receive care leads to greater dependency, diminished quality of life, higher rates of abuse and reduced life expectancy. RCSA's shelters provide a unique combination of healthcare, coordinated therapy and skilled care giving. RCSA partners with University Health System (UHS) to provide daily preventive care, medication management, and on-site skilled nursing care to assess, treat and improve conditions. At Davidson House, a pediatric nurse practitioner is on-site a minimum of eight hours each week for well and sick child visits and registered or licensed practical nurses are on-site daily. Children receive proactive and preventive care, including comprehensive physicals, immunizations and dental services. This treatment reduces emergency room visits, improves health outcomes, quality of life and life expectancy.

By helping children with special needs become healthier and more self-reliant, RCSA lessens the burden on families caring for children once they leave protective custody. This helps ultimately interrupt the cycle of violence and reduce the incidence of child abuse in the community. Successful impact is demonstrated by a wheelchair-bound three-year-old boy with developmental delays who arrived at RCSA severely malnourished. He required frequent tube feeding and was not receiving this care at home. In RCSA's care, he gained weight, his health improved and he made rapid developmental progress which led to a successful kinship foster placement.

COVID-19 Impact:

The COVID-19 pandemic disrupted program operations and substantially reduced revenues. In response, RCSA's leadership took action and devised creative solutions to help protect our agency and ensure the safety, security and well-being of our children, families, staff and supporters. The Davidson and Najim shelters continue to operate 24/7 during the COVID-19 pandemic and Respite Care is following virus prevention guidelines, social distancing mandates, and health recommendations/directives. Compliance required Respite Care to suspend volunteer activities and restrict access to essential visitors only. In March 2020, local schools closed due to COVID-19 and RCSA created a remote learning center for children residing in its emergency shelters. The children thrived in this environment, with all participants quickly achieving developmental milestones and most exhibiting improvements in their overall grades.

COVID-19 led to the temporary suspension of RCSA's community services effective March 16, 2020 and remain closed until further notice. The frequency of existing medical conditions on the population served and the related risk, the current staffing challenges, and the temporary closure of facilities by landlords all prevent reopening these programs at this time. Currently, we plan to open these programs at a modified level in Fall 2020, but will continue to follow community guidelines and mandates, and adjust reopening dates as necessary. In the meantime, RCSA developed weekly, online play sessions for children and parent support group meetings to share knowledge, relieve stress and foster connections during quarantine. In FY20, RCSA provided 297 hours of family support appointments to 91 parents through FY20.

Evaluation Plan:

RCSA anticipates that at least 95% of children residing in the shelters for at least 30 days will achieve improved health and developmentally appropriate milestones, depending on their ability. Staff will assess children quarterly utilizing he Residential Participant Progress Evaluation, an instrument developed by RCSA to measure developmental, physical and behavioral improvement. Caregivers track each child's progress in mobility, communication, therapy, behavioral health, self-reliance and life skills. Program leadership will create service plans documenting the level of improvement and establish goals for each child to promote continued growth. RCSA will make program improvements and enhancements based on an evaluation of results.

RCSA will also track the frequency of care received, including visits to medical, dental, mental health providers and therapists; referrals to external specialists; and the completion of comprehensive physicals and immunizations. RCSA anticipates that at least 95% of children will receive comprehensive physicals and be up-to-date with immunizations.

Plans to sustain project beyond the term of this request:

The shelter program is sustained through diversified funding sources, including the Texas Department of Family & Protective Services (TDFPS), federal Emergency Food and Shelter Program (EFSP), City of San Antonio, private foundations, corporate and individual donors, special event proceeds, client fees, grants and contracts. To address funding fluctuations, RCSA may sustain this program through appeal campaigns, profit share fundraisers, fees, and contributions from civic organizations, corporations and individual donors. The stipend from TDFPS only funds approximately 65% of shelter expenses. Thus, leadership of the agency, to include members of the board, aggressively seek new funding sources to sustain program operations and serve children in need.

Children Impacted:

How many unduplicated children will the TOTAL PROJECT INITIATIVE impact?	How many unduplicated children will NFF REQUESTED FUNDS impact?
60	60

Please provide the percentage of each group below that will be served by the project in which funds are being requested. Do not leave any area blank. If that specific group will not be served, include zero. The percentage should total 100%.

A. Population Served Age		B. Population Served Ethnicity
