

Project Timeline

Project will commence October 1, 2017 and will end September 30, 2018. The timeline aligns with the academic calendar and the organization's fiscal year. In September, program planning and preparation is completed. In October and November, girl and advisor recruitment occurs along with advisor training. In November, formal investiture and rededication ceremonies are held in each school district to recognize the program participants for their commitment to the program. Investiture ceremonies are attended by girls, parents, school administrators and community leaders. Throughout the rest of the program implementation period, chapters meet regularly to complete curriculum activities, plan and facilitate Take Action projects and participate in leadership conferences and special events. During the summer months, Camp Metro sessions are held weekly at the West Side Girl Scout Leadership Center for all Girl Scouts in grades K-8.
